Scytl

Online Voter Registration

Improves the efficiency of traditional voter registration processes and the accuracy of voter lists by providing voters with the means to conveniently and securely register and update their information over the Internet.

Scytl Online Voter Registration provides a secure, customizable, accurate and accessible voter registration interface that works seamlessly with existing voter lists and includes functionality such as authentication, removal of duplicate entries, and validation of registrants.

It streamlines the administrative efforts of election staff through a robust platform that pulls, updates and stores all voter contact, address, and polling location data in a single system.

Because of the sensitive nature of voter registration data, Scytl Online Voter Registration includes multi-level security protocols such as data segregation and dual login, human robot detection and secure workflows to ensure data is protected and can only be accessed by authorized electoral staff.

Online Voter Registration **Experience**

SECURE AND PROVEN TECHNOLOGIES SUCH AS SCYTL'S ONLINE VOTER REGISTRATION AND REMOTE VOTING SOLUTIONS ARE ALLOWING DISENFRANCHISED AND OVERSEAS CITIZENS ACROSS THE GLOBE TO BE INCLUDED WITHIN THEIR ELECTORAL PROCESS

How Online Voter Registration Works

1

Registration and Eligibility Process

Voters access the voter registration portal and accept the customized eligibility statement (if applicable).

2

Voter Registration Data Input

Voters fill out registration forms with personal data as required and upload necessary scanned ID documents.

3

Data Validation and Processing

Election officials review data and approve or reject the registration based on data completeness, with notification sent via email.

We Power Democracy

Leading the transformation of the elections industry by making voting more accessible, efficient, transparent, auditable and secure.

 + +

Focusing on **Election Specific Needs**

We strive on understanding the needs of electoral organizations to provide efficient and transparent elections and the rights of citizens to vote on equal terms.

Providing **the Right Technology for Each Election**

Our technology provides the perfect balance between efficiency and the highest level of security and transparency standards currently available.

Delivering **Expertise and Best Practices**

Our team of electoral experts have years of accumulated knowledge and are attuned to the singular needs that each election requires.

## Addressing Election Needs Across the Election Cycle

Pre-Election
Our solutions assist election administrators with the planning, staffing, training and voter and candidate management activities necessary for the delivery of a flawless election.

Election Day
The most critical period of the election, our solutions ensure that whether in-person or remotely, voters leverage accessible technology that allow them to cast their vote privately and securely.

Post-Election
After voting, some of the most important steps take place to ensure full integrity of the votes, and the secure consolidation andpublication of election results.

About Scytl

Powering democracy in the 21st Century requires a unique combination of forces: people and technology. Scytl's secure and innovative online voting and election management technology, elections understanding, and team of election experts are helping public and private organizations around the globe increase and improve participatory democracy, citizen empowerment and public transparency in over 47 countries, including Canada, Switzerland, France, Norway, Switzerland, Spain, the United Kingdom, the United States, the UAE, South Africa, India, and Australia.
