Scytl

Election **Night Reporting**

Provides election officials and citizens with reliable real-time, user-friendly, online visualization of electoral results.

Supported by a scalable infrastructure ensuring no downtime during critical periods of peak usage, Scytl Election Night Reporting streamlines the distribution of results and produces downloadable reports that increase public outreach and eliminate the reliance on IT staff to post election results online.

The solution provides intuitive election results maps and graphics to illustrate voter turnout, totals by vote type, and results by polling place that can be accessed by citizens, media, candidates, etc.

Additionally, Scytl Election Night Reporting implements the necessary security protocols to ensure the integrity of the data provided and reported by the electoral commission.

How Election Night Reporting Works

Configuration **1**

Definition and configuration of all election reporting requirements and information to be made available to citizens before and after the election.
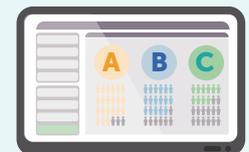

Preparation and Transmission **2**

Preparation of the validated electoral results by the electoral commission that will be encrypted, signed and transmitted via a secured channel.

Reports and Visualization **3**

Reporting and publication of the electoral results on the internet allowing citizens and media real-time visualization and leverage of results data.

Election Night Reporting **Experience**

2019 European Parliament Elections

ELECTION NIGHT REPORTING FROM 28 COUNTRIES AND IN 24 LANGUAGES FOR THE 2nd LARGEST DEMOCRATIC ELECTION IN THE WORLD, THE 2019 EUROPEAN PARLIAMENTARY ELECTION

E15

We Power **Democracy**

Leading the transformation of the elections industry by making voting more accessible, efficient, transparent, auditable and secure.

+ +

Focusing on **Election Specific Needs**

We strive on understanding the needs of electoral organizations to provide efficient and transparent elections and the rights of citizens to vote on equal terms.

Providing **the Right Technology for Each Election**

Our technology provides the perfect balance between efficiency and the highest level of security and transparency standards currently available.

Delivering **Expertise and Best Practices**

Our team of electoral experts have years of accumulated knowledge and are attuned to the singular needs that each election requires.

Addressing Election Needs Across the Election Cycle
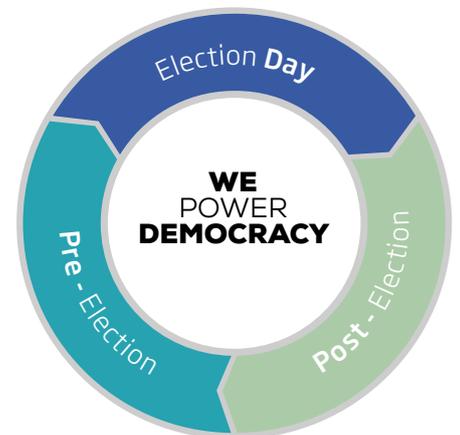

Pre-Election
Our solutions assist election administrators with the planning, staffing, training and voter and candidate management activities necessary for the delivery of a flawless election.

Election Day
The most critical period of the election, our solutions ensure that whether in-person or remotely, voters leverage accessible technology that allow them to cast their vote privately and securely.

Post-Election
After voting, some of the most important steps take place to ensure full integrity of the votes, and the secure consolidation andpublication of election results.

Election **Day**

WE POWER **DEMOCRACY**

Pre - Election

Post - Election
