BROCHURE

Our online **Election Training** solution allows you to:

Increase overall election efficiency

- Assign lessons to trainees based on role and duties
- Monitor progress and communicate with trainees in real time
- Guarantee workers are properly trained by election day

Provide interactive and comprehensive training

- Audio, visual, and multi-media content
- Each course requires active participation
- Trainings accessible from anywhere, at any time, and on any internet-connected device

Customize courses for your election specifics

- Upload previously used manuals and materials
- Create custom content based on your election equipment and rules
- Guarantee workers are properly trained by election day

2020 US General Election

72k

Workers trained across 20 counties and 3 cities

82k

Election training courses completed

+35 Million

Voters impacted by trained election staff

“ *The Scytl Online Election Training program helped us efficiently recruit and train 4,000 tech-savvy election workers. In addition, the poll workers can review the training material closer to Election Day.*”

Audra Lewicki
Manager, Community Services Division,
Chicago Board of Election Commissioners

How does *it work?*

Course Creation

Our team of experts will assist you in determining your training objectives and will help create courses and design curriculum to ensure your election workers are ready on election day. You can also upload previously created content.

Online Training

Publish your curriculum and easily assign courses based on an election worker's position and duties. Workers then log on to the platform and begin training. You can also monitor the progress of each worker in real time and communicate with them as needed.

Evaluation

Verify that each poll worker has completed their training, and that they have performed well by reviewing customized reports on their training. After the election, conduct an evaluation of the process to identify key areas for improvement.
